

PUBLICATIONS by Horst Malke

February 2019

Original Papers

1964 - 1966

Malke H (1964)

Wirkung von Lysozym auf die Symbionten der Blattiden.
Z allgem Mikrobiol 4: 88-91

Malke H (1964)

Production of aposymbiotic cockroaches by means of lysozyme.
Nature (Lond.) 204: 1223-1224

Malke H (1965)

Über das Vorkommen von Lysozym in Insekten.
Z allgem Mikrobiol 5: 42-47

Malke H, Schwartz W (1966)

Untersuchungen über die Symbiose von Tieren mit Pilzen und Bakterien XII. Die Bedeutung der Blattidensymbiose.
Z allgem Mikrobiol 6: 34-68

Malke H, Schwartz W (1966)

Untersuchungen über die Symbiose von Tieren mit Pilzen und Bakterien XIII. Die Rolle des Wirtslysozyms in der Blattidensymbiose.
Arch Mikrobiol 53: 17-32

Malke H, Bartsch G (1966)

Elektronenoptische Untersuchung zur intracellulären Bakteriensymbiose von *Nauphoeta cinerea* (Olivier) (*Blattariae*).
Z allgem Mikrobiol 6: 163-176

Malke H (1966)

Induktion eines lysogenen A-Streptokokken mit N-methyl-N'-nitro-N-nitrosoguanidin.
Monatsber DAW 8: 850

1967 - 1969

Overbeck J, **Malke H** (1967)

Der Einfluss verschiedener Phosphorverbindungen auf die Stickstoffbindung von *Azotobacter chroococcum*.
Z allgem Mikrobiol 7: 197-216

Malke H (1967)

Prophage induction by N-methyl-N'-nitro-N-nitroso-guanidine in a group A *Streptococcus*.
Nature (Lond.) 214: 811-812

Malke H (1967)

Dunkelreaktivierung von UV-Schäden und Nitrosoguanidinresistenz bei *Streptococcus pyogenes*.
Z Naturforsch 22b: 1139-1143

Malke H (1967)

Host-cell reactivation of ultraviolet-damaged phage in *Streptococcus pyogenes*.
Biochem Biophys Res Commun 29: 400-405

Malke H (1968)

The action of nitrosoguanidine and other DNA-inactivating agents on
Streptococcus pyogenes K56 strains with normal and reduced dark repair ability.
Molec Gen Genet 102: 241-246

Malke H (1968)

Zu einigen wissenschaftstheoretischen Fragen in der Biologie.
Wiss Z Univ Greifswald; gesellschafts- und sprachwiss. Reihe, Jg. 17: 163-165

Malke H (1969)

Transduction of *Streptococcus pyogenes* K56.
Microb Genet Bull 31: 23

Malke H (1969)

Transduction of *Streptococcus pyogenes* K56 by temperature-sensitive mutants of
the transducing phage A25.
Z Naturforsch 24b: 1556-1561

1970

Malke H (1970)

Characteristics of transducing group A streptococcal bacteriophages A5 and
A25.
Arch ges Virusforsch 29: 44-49

Malke H (1970)

Complementation between *uvr* mutants of *Streptococcus pyogenes*.
Molec Gen Genet 109: 278-284

Malke H (1970)

Resistance pattern and genetics of erythromycin-resistant mutants of *Streptococcus pyogenes*.
J Gen Microbiol 64: 353-363

Malke H (1970)

UV- und chemisch induzierte Integration des F-Episoms in excisionsdefekten Mutanten von
Escherichia coli K12.
Ergebn Exp Med 2: 36-38

1972 - 1973

Malke H (1972)

Linkage relationships of mutations endowing *Streptococcus pyogenes* with resistance to
antibiotics that affect the ribosome.
Molec Gen Genet 116: 299-308

Malke H (1972)

Transductional analysis of resistance to lincomycin and erythromycin in *Streptococcus pyogenes*.
Z allgem Mikrobiol 12: 469-478

Malke H (1972)

Eine gegen Makrolide und Lincomycin hochresistente Mutante von *Streptococcus pyogenes* 56188.

Zbl Bakteriol Hyg IA 222: 459-467

Malke H, Köhler W (1973)

Transduction among group A streptococci: Transducibility of strains representative of thirty different M types.

Zbl Bakteriol Hyg IA 224: 194-201

Malke H (1973)

Phage A25-mediated transfer induction of a prophage in *Streptococcus pyogenes*.

Molec Gen Genet 125: 251-264

1974 - 1977

Malke H, Starke R, Jacob HE, Köhler W (1974) Bacteriocine-like activity of group-A streptococci due to the production of peroxide.

J Med Microbiol 7: 367-374

Malke H (1974)

Genetics of resistance to macrolide antibiotics and lincomycin in natural isolates of *Streptococcus pyogenes*.

Molec Gen Genet 135: 349-367

Malke H (1975)

Recombination deficient mutants of *Streptococcus pyogenes* K56.

Z allgem Mikrobiol 15: 31-37

Malke H, Starke R, Köhler W, Kolesnichenko TG, Totolian AA (1975)

Bacteriophage P13234mo-mediated intra- and intergroup transduction of antibiotic resistance among streptococci.

Zbl Bakteriol Hyg IA 233: 24-34

Malke H (1975)

Transfer of a plasmid mediating antibiotic resistance between strains of *Streptococcus pyogenes* in mixed cultures.

Z allgem Mikrobiol 15: 645-649

Malke H, Jacob HE, Störl K (1976)

Characterization of the antibiotic resistance plasmid ERL1 from *Streptococcus pyogenes*.

Molec Gen Genet 144: 333-338

Malke H (1977)

Interaction of chromosomal mutations to erythromycin resistance with plasmid-mediated resistance to erythromycin and lincomycin in *Streptococcus pyogenes*.

Z allgem Mikrobiol 17: 407-411

1978 - 1979

Behnke D, **Malke H** (1978)

Bacteriophage interference in *Streptococcus pyogenes*. I. Characterization of prophage-host systems interfering with the virulent phage A25.

Virology 85: 118-128

Behnke D, **Malke H** (1978)

Bacteriophage interference in *Streptococcus pyogenes*. II. A25 mutants resistant to prophage-mediated interference.

Virology 85: 129-136

Totolian AA, Kolesnichenko TG, **Malke H**, Starke R (1979)

Studies on plasmid determined antibiotic resistance of streptococci.

Antibiotiki (Moskau) 3: 202-207

Malke H (1979)

Conjugal transfer of plasmids determining resistance to macrolides, lincosamides and streptogramin-B type antibiotics among group A, B, D and H streptococci.

FEMS Microbiol Lett 5: 335-338

Behnke D, Golubkov VI, **Malke H**, Boitsov AS, Totolian AA (1979)

Restriction endonuclease analysis of group A streptococcal plasmids determining resistance to macrolides, lincosamides and streptogramin-B antibiotics.

FEMS Microbiol Lett 6: 5-9

Boitsov AS, Golubkov IV, Iontova IM, Zaitsev EN, **Malke H**, Totolian AA (1979)

Inverted repeats on plasmids determining resistance to MLS antibiotics in group A streptococci.

FEMS Microbiol Lett 6: 11-14

Behnke D, **Malke H**, Hartmann M, Walter F (1979) Post-transformational rearrangement of an in vitro reconstructed group-A streptococcal erythromycin resistance plasmid.

Plasmid 2: 605-616

1980 – 1982

Jacob HE, **Malke H**, Starke R (1980)

Kinetics of peroxide formation in group A streptococci.

Bioelectrochemistry and Bioenergetics 7: 513-516

Malke H, Reichardt W, Hartmann M, Walter F (1981)

Genetic study of plasmid-associated zonal resistance to lincomycin in *Streptococcus pyogenes*.

Antimicrob Agents Chemother 19: 91-100

Malke H, Burman LG, Holm SE (1981)

Molecular cloning in streptococci: Physical mapping of the vehicle plasmid pSM10 and demonstration of intergroup DNA transfer.

Molec Gen Genet 181: 259-267

Malke H (1981)

Deletion analysis of the streptococcal plasmid cloning vehicle pSM10.

FEMS Microbiol Lett 11: 27-30

Malke H, Holm SE (1981)

Expression of streptococcal plasmid-determined resistance to erythromycin and lincomycin in *Escherichia coli*.

Molec Gen Genet 184: 283-285

Malke H, Noack D, Holm SE (1982)
Transformation of *Streptococcus sanguis* (Challis) by linear plasmid molecules.
Molec Gen Genet 185: 502-505

Golubkov VI, Reichardt W, Boitsov AS, Iontova IM, **Malke H**, Totolian AA (1982)
Sequence relationships between plasmids associated with conventional MLS resistance and
zonal lincomycin resistance in *Streptococcus pyogenes*.
Molec Gen Genet 187: 310-315

1984 - 1985

Malke H, Ferretti JJ (1984)
Streptokinase: Cloning, expression, and excretion by *Escherichia coli*.
Proc Natl Acad Sci USA 81: 3557-3561

Malke H, Gerlach D, Köhler W, Ferretti JJ (1984)
Expression of a streptokinase gene from *Streptococcus equisimilis* in *Streptococcus sanguis*.
Molec Gen Genet 196: 360-363

Riemelt I, Kirchhübel W, **Malke H** (1984)
Konjugativer Plasmidtransfer von A-, B- und H-Streptokokken auf N-Streptokokken.
Z allgem Mikrobiol 24: 719-723

Malke H, Roe B, Ferretti JJ (1985)
Nucleotide sequence of the streptokinase gene from *Streptococcus equisimilis*
H46A.
Gene 34: 357-362

Malke H, Ferretti JJ (1985)
Expression in *Escherichia coli* of streptococcal plasmid-determined erythromycin
resistance directed by the *cat* gene promoter of pACYC184.
J Basic Microbiol 25: 393-400

1986

Jackson KW, **Malke H**, Gerlach D, Ferretti JJ, Tang J (1986)
Active streptokinase from the cloned gene in *Streptococcus sanguis* is without the
carboxyl-terminal 32 residues.
Biochemistry 25: 108-114

Malke H (1986)
Das Streptokinase-Gen: Klonierung, Sequenzierung und Expression in neuen Wirten.
Z Klin Med 41: 502-504

Klessen C, **Malke H** (1986)
Expression of the streptokinase gene from *Streptococcus equisimilis* in *Bacillus subtilis*.
J Basic Microbiol 26: 75-81

Malke H, Ferretti JJ (1986)
The streptokinase gene.
Folia Haematol (Leipzig) 113: 88-98

Malke H (1986)
Codon usage in streptococci.
J Basic Microbiol 26: 587-595

1988

Laplace F, Hartmann M, Klessen C, Tonew M, **Malke H** (1988)
Expression of the human interferon-alpha 1 gene under transcriptional and translational control of the *speA* gene.
J Basic Microbiol 28: 55-61

Klessen C, Schmidt KH, Ferretti JJ, **Malke H** (1988)
Tripartite streptokinase gene fusion vectors for gram-positive and gram-negative prokaryotes.
Molec Genet 212: 295-300

Laplace F, Müller J, Wollweber L, **Malke H** (1988)
Expression of heterologous genes in *Pseudomonas putida* under the control of streptococcal promoters.
FEMS Microbiol Lett 52: 275-278

Laplace F, Klessen C, **Malke H** (1988)
Survey of the pSM10 family of streptococcal cloning vectors.
J Basic Microbiol 28: 471-480

1989

Huang TT, **Malke H**, Ferretti JJ (1989)
The streptokinase gene of group A streptococci: cloning, expression in *Escherichia coli*, and sequence analysis.
Molec Microbiol 3: 197-205

Huang TT, **Malke H**, Ferretti JJ (1989)
Heterogeneity of the streptokinase gene in group A streptococci.
Infection and Immunity 57: 502-506

Müller J, Reinert H, **Malke H** (1989)
Streptokinase mutations relieving *Escherichia coli* K-12 (*prlA4*) of detriments caused by the wild type *skc* gene.
J Bacteriol 171: 2202-2208

Klessen C, Schmidt KH, Gumpert J, Grosse HH, **Malke H** (1989)
Complete secretion of activable bovine prochymosin by genetically engineered L-forms of *Proteus mirabilis*.
Appl Environ Microbiol 55: 1009-1015

Walter F, Siegel M, **Malke H** (1989)
Nucleotide sequence of the streptokinase gene from a *Streptococcus pyogenes* type 1 strain.
Nucl Acids Res 17: 1261

Walter F, Siegel M, **Malke H** (1989)
Nucleotide sequence of the streptokinase gene from a group G-*Streptococcus*.
Nucl Acids Res 17: 1262

Müller J, **Malke H** (1989)
Sequence-directed DNA bending upstream of the streptokinase promoter.
J Basic Microbiol 29: 611-616

Laplace F, Egerer R, Gumpert J, Kraft R, Kostka S, **Malke H** (1989)
Heterologous signal peptide processing in fusion interferon synthesis by engineered L-forms
of *Proteus mirabilis*.
FEMS Microbiol Lett 59: 59-64

Laplace F, Müller J, Gumpert J, **Malke H** (1989)
Novel shuttle vectors for improved streptokinase expression in streptococci and bacterial L-
forms.
FEMS Microbiol Lett 65: 89-94

1990 - 1993

Müller J, **Malke H** (1990)
Duplication of the streptokinase gene in the chromosome of *Streptococcus equisimilis*
H46A.
FEMS Microbiol Lett 72: 75-78

Zimmer C, Noack D, Unger E, **Malke H** (1990)
Biotechnologie in Thüringen-Molekularbiologie.
BioEngineering 6: 50-52

Schmidt KH, Klessen C, Köhler W, **Malke H** (1991)
Protein A-streptokinase fusion protein for immunodetection of specific IgG
antibodies.
J Immunol Meth 143: 111-117

Katenkamp U, Groth I, Laplace F, **Malke H** (1992)
Electrotransformation of the stable L-form of *Proteus mrabilis*.
FEMS Microbiol Lett 94: 19-22

Malke H (1993)
Polymorphism of the streptokinase gene: implications for the pathogenesis of
post-streptococcal glomerulonephritis.
Zbl Bakteriol 278: 246-257

Mehold U, Steiner K, Vettermann S, **Malke H** (1993)
Genetic organization of the streptokinase region of the *Streptococcus equisimilis*
H46A chromosome.
Molec Gen Genet 241: 129-140

1994 - 1995

Malke H, Mebold U, Gase K, Gerlach G (1994)
Inactivation of the streptokinase gene prevents *Streptococcus equisimilis* H46A from
acquiring cell-associated plasmin activity in the presence of plasminogen.
FEMS Microbiol Lett 116: 107-112

Steiner K, **Malke H** (1995)
Transcription termination of the streptokinase gene of *Streptococcus equisimilis* H46A:
bidirectionality and efficiency in homologous and heterologous hosts.
Molec Gen Genet 246: 374-380

Gase K, Ellinger T, **Malke H** (1995)
Complex transcriptional control of the streptokinase gene of *Streptococcus equisimilis*
H46A.
Molec Gen Genet 247: 749-758

Frank C, Steiner K, **Malke H** (1995)
Conservation of the organization of the streptokinase gene region among pathogenic streptococci.
Med Microbiol Immunol 184: 139-146

1996

Mechold U, Cashel M, Steiner K, Gentry D, **Malke H** (1996)
Functional analysis of a *relA/spoT* gene homolog from *Streptococcus equisimilis*.
J Bacteriol 178: 1401-1411

Gräfe S, Ellinger T, **Malke H** (1996)
Structural dissection and functional analysis of the complex promoter of the streptokinase gene from *Streptococcus equisimilis* H46A.
Med Microbiol Immunol 185: 11-17

Gase K, Gase A, Schirmer H, **Malke H** (1996)
Cloning, sequencing and functional overexpression of the *Streptococcus equisimilis* H46A *gapC* gene encoding a glyceraldehyde-3-phosphat dehydrogenase that also functions as a plasmin(ogen) binding protein: purification and biochemical characterization of the protein.
Europ J Biochem 239: 42-51

Groß S, Gase K, **Malke H** (1996)
Localization of the sequence-determined DNA bending center upstream of the streptokinase gene *skc*.
Arch Microbiol 166: 116-121

1997 - 1998

Mechold U, **Malke H** (1997)
Characterization of the stringent and relaxed responses of *Streptococcus equisimilis*.
J Bacteriol 179: 2658-2667

Gase K, Liu G, Bruckmann A, Steiner K, Ozegowski J, **Malke H** (1997)
The *lppC* gene of *Streptococcus equisimilis* encodes a lipoprotein that is homologous to the e (P4) outer membrane protein from *Haemophilus influenzae*.
Med Microbiol Immunol 186: 63-73

Steiner K, **Malke H** (1997)
Primary structure requirements for in vivo activity and bidirectional function of the transcription terminator shared by the oppositely oriented *skc/rel-orf1* genes of *Streptococcus equisimilis*.
Mol Gen Genet 255: 611-618

Gase K, Ozegowski J, **Malke H** (1998)
The *Streptococcus agalactiae* *hyLB* gene encoding hyaluronate lyase: completion of the sequence and expression analysis.
Biochim Biophys Acta 1398: 86-98

Malke H (1998)
Cytoplasmic membrane lipoprotein LppC of *Streptococcus equisimilis* functions as an acid phosphatase.
Appl Environm Microbiol 64: 2439-2442

Wehmeier L, Schäfer A, Burkovski A, Krämer R, Mechold U, **Malke H**, Pühler A, Kalinowski J (1998)
The role of the *Corynebacterium glutamicum rel* gene in (p)ppGpp metabolism.
Microbiology UK 144: 1853-1862

2000 - 2002

Malke H, Steiner K, Gase K, Frank C (2000)
Expression and regulation of the streptokinase gene.
Methods 21: 111-124

Steiner K, **Malke H** (2000)
Life in protein -rich environments: the *relA*-independent response of *Streptococcus pyogenes* to amino acid starvation.
Mol Microbiol 38: 1004-1016

Steiner K, **Malke H** (2001)
relA-independent amino acid starvation response network of *Streptococcus pyogenes*.
J Bacteriol 183: 7354-7364

Steiner K, **Malke H** (2002)
Dual control of streptokinase and streptolysin S production by the *covRS* and *fasCAX* two-component regulators in *Streptococcus dysgalactiae* subsp. *equisimilis*.
Infect Immun 70: 3627-3636

Malke H (2002)
Documenting Lysenkoism.
Science 297: 1646

2004 - 2007

Malke H, Steiner K (2004)
Control of streptokinase gene expression in group A & C streptococci by two-component regulators.
Indian J Med Res 119: 48-56

Hogg T, Mechold U, **Malke H**, Cashel M, Hilgenfeld R (2004)
Conformational antagonism between opposing active sites in a bifunctional RelA/SpoT homolog modulates (p)ppGpp metabolism during the stringent response.
Cell 117: 57-68

Malke H, Steiner K, McShan WM, Ferretti JJ (2006)
Linking the nutritional status of *Streptococcus pyogenes* to alteration of transcriptional gene expression: The action of CodY and RelA.
Intern J Med Microbiol 296: 259-275

Malke H, Ferretti JJ (2007)
CodY-affected transcriptional gene expression of *Streptococcus pyogenes* during growth in human blood.
J Med Microbiol 56: 707-714

2011 - 2013

Kreth J, Chen Z, Ferretti J, **Malke H** (2011)
Counteractive balancing of transcriptome expression involving CodY and CovRS
in *Streptococcus pyogenes*.
J Bacteriol 193: 4153-4165; Erratum 193: 5885

Chen Z, Itzek A, **Malke H**, Ferretti JJ, Kreth J (2012)
Dynamics of *speB* transcripts in *Streptococcus pyogenes*.
J Bacteriol 194: 1417-142

McDowell EJ, Callegari EA, **Malke H**, Chaussee MS (2012)
CodY-mediated regulation of *Streptococcus pyogenes*
exoproteins.
BioMed Central Microbiology 12:114, pp 1-8

Chen Z, Itzek A, **Malke H**, Ferretti JJ, Kreth J (2013)
Multiple roles of RNase Y in *Streptococcus pyogenes* mRNA processing and
degradation.
J Bacteriol 195: 2585-2594

Reviews, Book Contributions and Published Presentations

1972 - 1979

Malke H (1972)

Transduction in group A streptococci.
In: Wannamaker LW, Matsen JM (eds) *Streptococci and Streptococcal Diseases: Recognition, Understanding and Management*. Academic Press, New York, pp 119-133

Malke H (1972)

Genetic analysis of erythromycin and lincomycin resistance in *Streptococcus pyogenes*.
In: *Advances in Antimicrobial and Antineoplastic Chemotherapy*. Urban & Schwarzenberg und Avicenum, München und Prag, pp 525-527

Malke H (1975)

Genetic basis of resistance to macrolides, lincomycin, and streptogramin-B type antibiotics
in clinical isolates of *Streptococcus pyogenes*.
Proc Fifth Intern Colloq Phage Typing and Other Laboratory Methods for
Epidemiological Surveillance, Wernigerode, pp 434-446

Malke H, Totolian AA, Kolesnichenko TG, Golubkov VI, Starke R (1977) Plasmid-determined resistance to erythromycin and lincomycin in *Streptococcus pyogenes*. In: Mitsuhashi S, Rosival L, Krcmery V (eds) *Plasmids: Medical and Theoretical Aspects*. Springer Verlag, Prague, Avicenum and Berlin, pp 101-108

Malke H (1978)

Zonal-pattern resistance to lincomycin in *Streptococcus pyogenes*.
In: Schlessinger D (ed) *Microbiology 1978*. Amer Soc Microbiol, Washington DC, pp 142-145

Skjold SA, **Malke H**, Wannamaker LW (1979)

Transduction of plasmid-mediated erythromycin resistance between group A and G streptococci.

In: Parker MT (ed) *Pathogenic Streptococci*. Reedbooks Ltd, Chertsey, Surrey, Engl, pp 274-275

Malke H (1979)

Plasmid control of zonal resistance to lincomycin in group A streptococci.

In: Parker MT (ed) Pathogenic Streptococci. Reedbooks Ltd, Chertsey, Surrey, Engl, p 275

1982

Malke H, Holm SE (1982)

Streptococcal DNA cloning vehicles derived from a plasmid associated with zonal lincomycin resistance.

In: Holm SE, Christensen P (eds) Basic Concepts of Streptococci and Streptococcal Diseases. Reedbooks Ltd, Chertsey, Surrey, Engl, pp 233-235

Gilmore MS, Ferretti JJ, Behnke D, **Malke H** (1982)

Conservation of MLS resistance and putative replication function sequences on streptococcal antibiotic resistance plasmids.

In: Holm SE, Christensen P (eds) Basic Concepts of Streptococci and Streptococcal Diseases. Reedbooks Ltd, Chertsey, Surrey, Engl, pp 236-238

Malke H, Holm SE (1982)

Helper plasmid system for DNA cloning with pSM10-related vehicles.

In: Schlessinger D (ed) Microbiology 1982. Amer Soc Microbiol, Washington DC, p 243-247

1983 -1989

Malke H (1983)

Genetik bakterieller Erreger von Infektionskrankheiten.

In: Brüschke G (ed) Handbuch der Inneren Erkrankungen: Infektionskrankheiten. Gustav Fischer Verlag, Jena, vol 5, pp 63-91

Malke H, Ferretti JJ (1985)

A cloned streptokinase gene from *Streptococcus equisimilis* H46A.

In: Kimura Y, Kotami S, Shiokawa Y (eds) Recent Advances in Streptococci and Streptococcal Diseases. Reedbooks Ltd, Bracknell, Berkshire, Engl, pp 221-222

Huang TT, **Malke H**, Ferretti JJ (1985)

Hybridization of a cloned group C streptococcal streptokinase gene with DNA from other streptococcal species.

In: Kimura Y, Kotami S, Shiokawa Y (eds) Recent Advances in Streptococci and Streptococcal Diseases. Reedbooks Ltd, Bracknell, Berkshire, Engl, pp 234-236

Malke H, Lorenz D, Ferretti JJ (1987)

Streptokinase: Expression of altered forms.

In: Ferretti JJ, Curtiss III R (eds) Streptococcal Genetics. Amer Soc Microbiol, Washington DC, pp 143-149

Malke H (1989)

Bakteriophagen und Bakteriocine.

In: Kleinheimpel H, Naumann K, Spaar D (eds) Bakterielle Erkrankungen der Kulturpflanzen. Gustav Fischer Verlag, Jena, pp 81-93

1991 - 1992

Malke H, Ferretti JJ (1991)

Expression and properties of hybrid streptokinases extended by N-terminal plasminogen kringle domains.

In: Dunny GM, Cleary PP, McKay LL (eds) Genetics and Molecular Biology of Streptococci, Lactococci, and Enterococci. Amer Soc Microbiol, Washington DC, pp 184-189

Ferretti JJ, Huang TT, Hynes WL, **Malke H**, Simon D, Suvorov A, Yu CE

(1991) Extracellular product genes of group A streptococci.

In: Dunny GM, Cleary PP, McKay LL (eds) Genetics and Molecular Biology of Streptococci, Lactococci, and Enterococci. Amer Soc Microbiol, Washington DC, pp 201-205

Malke H (1991)

Grundlagen der Bakteriengenetik.

In: Blobel H, Schliesser T (eds) Handbuch der bakteriellen Infektionen bei Tieren. Gustav Fischer Verlag, Jena, Bd. I, 2. Aufl, pp 159-193

Mehold U, Müller J, **Malke H** (1992)

Streptokinase mutations affecting *skc* expression in homologous and heterologous hosts.

In: Orefici G (ed) New Perspectives on Streptococci and Streptococcal Infections. Gustav Fischer Verlag, Stuttgart, pp 336-338

1994 - 1998

Hynes WL, **Malke H**, Ferretti JJ (1994)

Expresion of a kringle-streptokinase fusion protein in Baculovirus infected insect cells.

In: Totolian AA (ed) Pathogenic Streptococci: Present and Future. Lancer Publ, St. Petersburg, pp 185-186

Malke H, Steiner K, Gase K, Mehlhorn U, Ellinger T (1995)

The streptokinase gene: allelic variation, genomic environment, and expression control.

In: Ferretti JJ, Gilmore MS, Klaenhammer TR, Brown F (eds) Genetics of Streptococci, Enterococci and Lactococci. Dev Biol Stand Basel, Karger, vol 85, pp 183-193

Malke H (1996)

Expressionskontrolle von Virulenzgenen der Streptokokken und Staphylokokken.

Nova Acta Leopoldina NF 73: 21-44

Malke H (1997) Teil „Genetik und Molekularbiologie“.

In: Wörterbuch der Mikrobiologie (Hrsg., H. Weber), Gustav Fischer Verlag Jena

Steiner K, Mehlhorn U, **Malke H** (1997)

Elicitation of high (p)ppGpp levels in *Streptococcus equisimilis* without imposing nutritional deprivation.

In: Streptococci and the Host (eds., Horaud T, Bouvet A, Leclercq R, deMontclos H, Sicard M), Plenum Press, New York and London, pp 991-993

Malke H, Ferretti JJ, Podbielski A, Suvorov A, Trieu-Cuot P (1997)

Summary of the round table discussion on genome structure and regulation of gene expression in streptococci and enterococci.

In: Streptococci and the Host (eds., Horaud T, Bouvet A, Leclercq R, De Montclos H, Sicard M), Plenum Press, New York and London, pp 1051-1056

Frank C, Steiner K, Bruckmann A, **Malke H** (1998)
Streptokinase gene regulation.
ASM Confer. Streptococcal Genetics, Vichy, France, 1998; Abstract 2C-33

1999 - 2001

Malke H (1999)

Student unter Müller-Stoll und die ersten Sprünge.
In: Zur Geschichte der Botanik in Berlin und Potsdam – Wandel und Neubeginn nach 1945
(Hrsg.: Kössler F und Höxtermann E), Verlag für Wissenschafts- und Regionalgeschichte
Dr. Michael Engel, Berlin, S. 257-274

Malke H (2000)

Genetics and pathogenicity factors of group C and G streptococci.
In: Gram -Positive Pathogens (eds: Fischetti VA, Novick RP, Ferretti JJ, Portnoy DA,
Rood JI), ASM Press, Washington DC, pp. 163-176

Malke H, Steiner K (2000) Functional properties of the cytoplasmic membrane
lipoprotein acid phosphatase of *Streptococcus dysgalactiae* subsp. *equisimilis*.
In: Streptococci and Streptococcal Diseases – Entering the New Millennium (eds: Martin
DR and Tagg JR), Securacopy, Porirua, NZ, pp. 879-883

Malke H (2001)

Bakterielle Genomforschung: Ergebnisse und Herausforderungen.
Akademie gemeinnütziger Wissenschaften zu Erfurt; Jahrbuch 2001, pp. 47-48

2006 - 2009

Malke H (2006)

Genetics and pathogenicity factors of group C and G streptococci.
In: Gram-Positive Pathogens, 2nd edition (eds: Fischetti VA, Novick RP, Ferretti JJ,
Portnoy DA, Rood JI), ASM Press, Washington DC, pp. 196-212

Malke H, Steiner K, Ferretti JJ (2006)

Response of *Streptococcus pyogenes* to feast and famine conditions.
Intern Congress Ser 1289: 135-138

Malke H (2008)

Das Institut für Molekularbiologie der Friedrich-Schiller-Universität Jena: 1992-2002.
In: Vitalprinzip Akademie, Sonderschriften der Akademie gemeinnütziger Wissenschaften zu
Erfurt, 38/2008, pp. 305-321

Malke H, McShan WM, Ferretti JJ (2009)

Integration of metabolic and virulence pathways in serological group A and C streptococci:
nutritional status meets virulence.
In: Symbiosen – Wissenschaftliche Wechselwirkungen zu gegenseitigem Vorteil,
Sonderschriften der Akademie gemeinnütziger Wissenschaften zu Erfurt, 39/2009, pp. 11-25

2013 - 2016

Malke H (2013)

Globale Genregulatoren humanpathogener Bakterien: Struktur, Funktion und Perspektiven.
Akademie gemeinnütziger Wissenschaften zu Erfurt, Jahrbuch 2013, pp. 94-95

Vega LA, **Malke H**, McIver KS (2016) Virulence-related transcriptional regulators of *Streptococcus pyogenes*.

In: Ferretti JJ, Stevens DL, Fischetti VA, editors. *Streptococcus pyogenes: Basic Biology to Clinical Manifestations* (<http://www.ncbi.nlm.nih.gov/books/NBK333424>) Oklahoma City (OK): University of Oklahoma Health Sciences Center

2019

Malke H (2019)

Genetics and pathogenicity factors of group C and G streptococci.

Microbiol Spectrum 7(2):GPP3-0002- 2017. doi:10.1128/microbiolspec.GPP3-0002-2017.
